Ready to do

**Radical
Good**

 INFINITE

What is Radical Good® ?

Based in Sunny
Los Angeles, CA

Infinite is centered around generating social good through our design consulting practice.

In particular, we look to generate what we term as Radical Good® through our designs for the world around us.

While some might see our multidisciplinary nature as a limitation, we believe that a transdisciplinary approach works to illuminating the systems-wide connections that exist in all designs, and allow us a much greater understanding of the problems facing our clients to create lasting and effective solutions.

Radical Good® +itself is a philosophy that puts the people being designed for at the absolute center of all processes and inclusion within the design process, and seeks to create new forms of life that empower individuals, coalesce communities, generate meaningful existence, and inspire hope within the communities, companies, and governments we serve.

Our clients come to us because of our principles of designing for Radical Good®, and need us to create inspiring and empowering ways of being through our designs, it is a mission that we deeply respect and hold ourselves accountable towards.
